Mr. Gruenberg;

Please encourage the board of directors to attend the hearing regarding the Walmart bank. I fear that Walmart is so gigantic that it poses a threat to the local economies. I am surprised that the federal government has not tagged this company as a monopoly like ATT and step in to dissolve its worldwide power.

I don't want to see local banks disappear. We have a relationship with our local bank and don't need a Walmlart bank. Walmart has already broken so many laws with regard to employee overtime and benefits, why would they stop there?" I see nothing but the poor and uneducated people of this country being taken advantage of--again-- by Walmart.
